UIINTARA MHy'GEN | RATCHADA - HUAI KHWANG

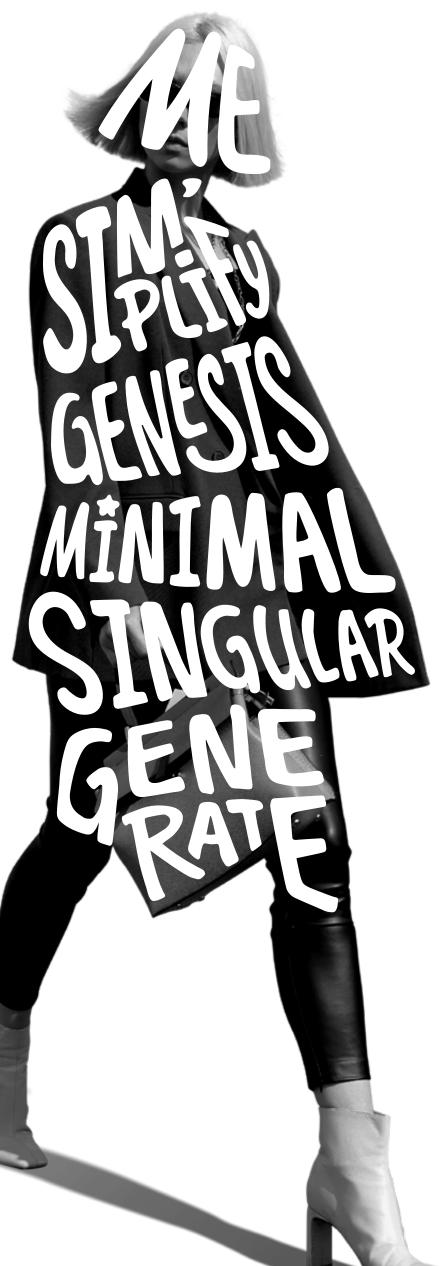

### MHY GENERATION WHY

### GENESIS of MHy GENERATION

The starting point of your unique lifestyle truly reflects who you are as a Generation Y through the extraordinary living experiences that make you say "Mhyyy" instead of "My" to fully express the extreme excitement of genuine self-reflection.

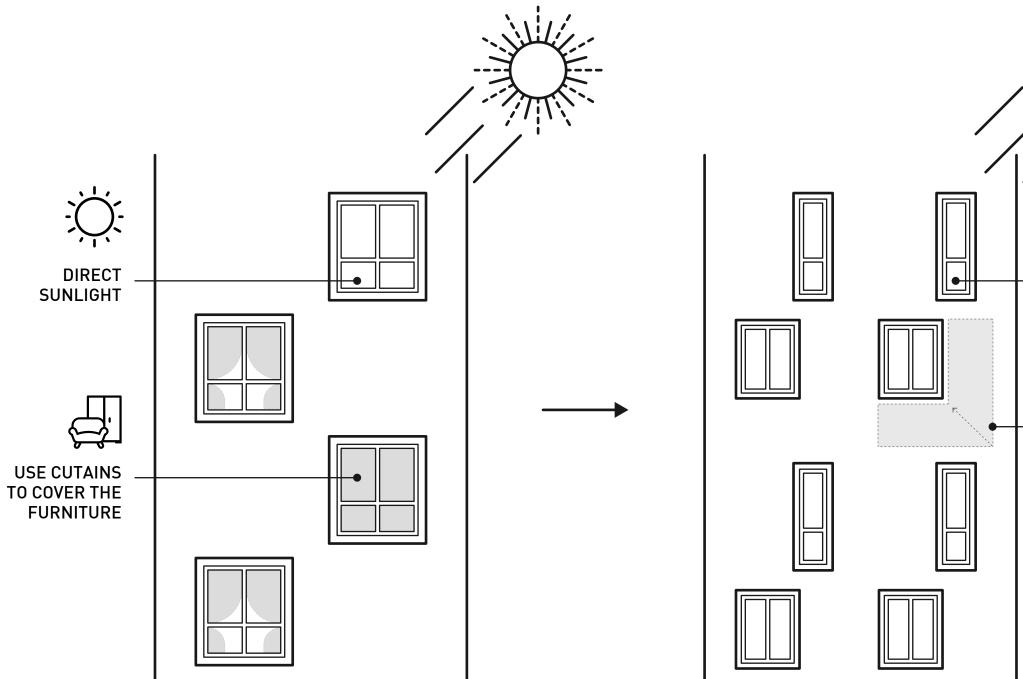

QUINTARA MHy' GEN is a minimal style condominium, especially created to simplify and amplify Gen Y's 360-degree living experiences through all-day activities; namely, social, party, shopping and travel, making urban life simpler, smarter, easier, and better match your way of living at the heart of the most vibrant CBD (Central Business District) Ratchada - Huai Khwang.

### **GENUINENESS** of MINIMALISM

The refined architecture concept design has been developed from the perfect alignment between simplicity, clarity, and singularity to create the impact of the idea LESS IS MORE in the most practical way of living by reducing living space and expanding the activities area.

THE SIMPLE WINDOW PATTERN WHICH GETS DIRECT SUNLIGHT. THE NEW WINDOW PATTERN WHICH AVIODS HARSH SUNLIGHT, WHILE COVERING THE FURNITURE INSIDE.

COVER THE FURNITURE BY THE WALL

### ARCHITECTURE \_\_\_\_DESIGN IDEOLOGY

According to recent research on condominium living, most people usually close their curtains because of heat and privacy issues. Therefore, the architecture design ideology focuses on shrinking the window proportion to fit residents' actual needs, namely the desire to stay cool by decreasing heat from the sunlight, as well as the benefits of saving energy from lower electricity consumption by air conditioners and creating a higher degree of privacy. Moreover, the extra interior design feature helps improve living space by extending the vertical reach to increase shelf storage.

# CONCEPT PROJECT DESIGN

Besides the refined artistry and functionality of the architecture and interior design, we also offer the most practicality and flexibility of usable space which can fit any lifestyle.

Making every day a leisure day, we design a logical and practical common area that perfectly meets all needs, even a separate public space for any New Normal social distancing activity, such as Kitchen Studio and Workshop Space.

Clean energy is commonly used in our projects via EV charger stations or solar cells around the golf courses.

Reaching to the next level of innovation for convenient and safe living with digital door access, security camera, automatic electric control, intelligent airflow, face scan, facilities booking system, etc.
